

**NICHE offers education and resources in the following areas to help your organization improve quality standards.**

### **Patient-Driven Payment Model**

- Swiftly detect changes in resident health
- Improve resident assessment and observation capabilities
- Infuse national standards and evidence-based guidelines into care protocols
- Enhance nursing documentation
- Reduce hospitalizations

### **Quality Assurance and Performance Improvement (QAPI)**

- Engage all levels of staff in QAPI activities around care of older adults
- Use data to drive QAPI efforts and measure impacts
- Incorporate evidence-based practice
- Improve overall outcomes
- Implement a comprehensive performance improvement project

### **Five-Star Quality Rating System**

- Engage and retain nursing staff
- Improve resident and survey outcomes
- Promote better performance in all quality measures

### **Phase 3 Implementation of Federal Regulations**

- Enhance person-centered care
- Meet and exceed regulatory requirements
- Build interdisciplinary team collaboration
- Strengthen processes around transitions of care
